Operation Underground Railroad is committed to supporting survivors in their healing process.

O.U.R. Aftercare vets and evaluates aftercare centers around the world. We do everything we can to ensure that children from any given rescue operation are given high-quality care throughout the healing process.

Before a rescue operation takes place, O.U.R. Aftercare will develop a partnership with a vetted in-country aftercare center. We are then dedicated to doing everything we can to stay with the victims once they are rescued. Most importantly we strive to assist in providing hope, love, and opportunities for all survivors that we meet both at home and around the world.

**BASED ON RESEARCH, THERE ARE 3 MAIN REASONS WHY SOMEONE IS SEXUALLY TRAFFICKED**

- Lack of a healthy family support system
- Poverty and false promises of opportunities
- Lack of education

---

**AFTERCARE**

How does O.U.R. address short-term and long-term change after someone is rescued from human trafficking?

**EDUCATION**

Before, during, and after being in a safe home

**SUPPORT SYSTEM**

Provide a support system or strengthen their family of origin

**LIVABLE INCOMES**

Vocational training that provides livable incomes

---

**SUICASES WITH A MISSION**

We have provided humanitarian aid to every country we work in through Suitcases with a Mission. Suitcases with a Mission are supported by volunteers who want to be involved in the humanitarian aid division of aftercare. The suitcases are theme-based and go to specific needs requested by the aftercare home.
O.U.R. AFTERCARE OPERATIONS AROUND THE WORLD

16 countries where we have partnered with aftercare homes

70 holistic survivor support services vetted by our aftercare specialists

40 missions conducted during 2016-2018 (approx.)

10 domestic and international trainings including Florida, Uganda, Peru, Thailand, Mexico, etc.

We support in the liberty of survivors to enjoy life again through community outings, birthday celebrations, and dance classes. We believe in enhancing social support for survivors to enjoy life again.

We support survivors to have long-term mental health services.

We have an Emergency Response Team in place that can support any aftercare home that is affected by a natural disaster.

We provide vocational training through gardening, sewing, teaching English, a mobile library, computer labs, computer skills, entrepreneur classes and survivor’s starting business, etc.
