How much do you know about your child's apps?

Online apps are part of life for children and teens. However, parents need to understand the risks of each app their child downloads. Below are 11 apps you should keep an eye out for.
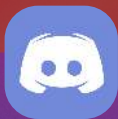

Snapchat

Whisper

WhatsApp

Instagram

Discord

Kik

BeReal

WeChat

TikTok

YouTube

Roblox

Scan the QR code to learn more about how each of these apps can pose a risk to your child.

OUR RESCUE

Parents are not talking with their children enough about their digital activity.

Throughout a child's life, parents spend on average only **46 minutes** talking to them about online safety.

(Kaspersky, 2019)
